MEMORANDUM FOR SEE DISTRIBUTION

FROM: WR-ALC/FMPD

SUBJECT: ELECTRONIC DISSEMINATION OF TECHNICAL ORDERS

1. Printed formal copies of USAF publications is the approved method of issuing TOs/TCTOs. Interim safety and operational supplements may be issued by means of electrical transmission when circumstances preclude timely publication of formal printed instructions. A safety or operational supplement will be issued IAW AFMCI 21-302 when a hazardous condition could result in harm to personnel, equipment or mission success. T.O.00-5-19, paragraphs 13-8, 13-8.3, 19-7 through 19-7.5 provide detailed instructions for this action.

2. A determination of applicability to FMS users must be considered and Country Standard Technical Orders (CSTOs) provided in those cases where necessary. In no cases should TOs/TCTOs be issued to FMS users without coordination/review by the Foreign Disclosure Office.

3. It is the policy of the U.S. Government to treat classified and unclassified military information as a national security asset which must be conserved and protected, and which may be shared with foreign governments and international organizations only where there is a clearly defined advantage to the United States. In accordance with AFH 16-202, PARA 62, an unauthorized release of U.S. military information to foreign nations is considered a security compromise which will be handled through security police channels according to DOD S200.1-R and AFI 31-401. The local Air Force office of Special Investigations detachment will be notified in order to evaluate the potential for espionage.

4. If additional information or clarification is required POC is Warren Herbert, ext 63991 or Carl Sheppard, ext 63992.

CARL E. SHEPPARD
Chief, Foreign Disclosure Branch
Financial Management & Comptroller
